PRESENTATION

For mountain bike enthusiasts, nature lovers, and those who enjoy seemingly endless trails, Volcat is much more than a race: it's an adventure shared with friends and fellow riders, filled with unforgettable moments that will be cherished forever. This has been its philosophy since 2004.

The Volcat is an experience for everyone, where both the most competitive riders and those who love leisure can find their place. You can enjoy it solo or as a couple, choosing between the PRO or OPEN categories. The important thing is not just to pedal, but to live a unique and exciting experience!

The 2026 Volcat Igualada promises two spectacular stages that will thrill cycling enthusiasts. Participants will have the option of experiencing the entire race or challenging themselves with just one stage. Only those who complete both stages will be recognized with the prestigious title of Finisher.

CHARACTERISTICS

UCI Category: XCO C3

Stages: 2 stages, single venue in Igualada

Two stages of mountain bike featuring the world's best specialists in the discipline. A UCI C3 category event, this race will bring together global stars in Igualada, while also offering an amateur challenge to complete the different stages and become a finisher of this classic event.

As is tradition, the stage race will take place during Holy Week, making it the ideal plan for a holiday with friends or family.

OPEN PARTICIPATION

Participation in the OPEN category is designed so that anyone interested can take part in the event, even without an annual federation license. In this case, there are two options:

1. With a valid federation license. Participants who already have an annual license issued by the corresponding federation can register directly, without the need for additional procedures. This license includes insurance coverage and the sports validation necessary to participate in official events.
2. Without a federation license. Participants without an annual license can purchase a day license. This temporary license is valid only for the day of the race and guarantees both insurance coverage and official recognition of participation. It is a practical option for occasional participants or those who wish to try the experience before committing to an annual federation license.

Route

Participants in the OPEN category will complete the same circuits and distances as participants in the PRO category, which is intended for registered athletes and regular competitors.

ROUTE MARKING

The course will be marked with red arrows and ribbons, which must be followed at all times. Junior and Cadet categories will finish at the first aid station and will find the following signage indicating the end of their race. At this point, they may continue the race non-competitively in the OPEN category. The return to the finish line must be made using the runner's own means; the organizers will not provide transportation back to the finish line.

VOLCAT KIDS

There's also something for children at VolCAT. Those who could be the future VolCAT competitors will have their moment during these days of competition.

While world-renowned mountain bikers will compete for the win, younger cyclists, aged 2 to 14, will also be able to participate in a non-competitive manner.

The races will take place in the festival village area, using the Eliminator circuit.
